

Cut this piece off. ✂

Christmas cracker wrapper.

1. Print this file duplex (both sides) on cardstock.
2. Trim along the blue dotted line (removes excess that is not needed.)
3. Score along the blue lines (use a stylus or an ink pen). Fold along those lines, making little “tents” at these two places across the page.
4. Snip out the triangles along the gray lines.
5. Use tape runner or glue dots to put adhesive on one long edge.
6. Place a cracker snap across the middle, bending the tents areas slightly. Secure both ends.
7. Place the goodies inside your cracker, roll it up and secure it along the edge with adhesive.
